OUR STORY

Founded by three brothers in 1953, Air-Flo started with an idea to use “air flow” to improve the onion harvesting process. Today, the company is the leading manufacturer of premium truck equipment serving a wide range of customers and applications throughout North America. Air-Flo is unique in its ability to leverage deep customer relationships with efficient manufacturing processes to deliver the highest quality custom products on short lead times. The company is still proudly family owned and operated, benefiting from decades of industry experience and customer relationships. Air-Flo looks toward the future with an eye on its core manufacturing values and customer centric innovation.
