## PUBLIC WORKS SOLUTIONS

SOLUCIONES DE OBRAS PÚBLICAS  
SOLUTIONS POUR LES TRAVAUX PUBLICS

[ECCOESG.COM](http://ECCOESG.COM)

## STAY ALERT AND ON SCHEDULE

Your workers take on tough jobs every day to improve your community's quality of life. Operating a diverse fleet of vehicles and working alongside heavy equipment, often in low light and near congested residential areas, safety is of utmost importance. Equipping your vehicles—from UTVs to refuse trucks—with ECCO's superior lighting and safety solutions keeps the work zone safe, minimizing injuries and property damage. Stay on schedule to deliver services efficiently and confidently.

Protecting people is our top priority, which is why we engineer our products to exceed industry standards. For more than 48 years, public works departments and municipalities have relied on ECCO to get the job done in demanding and dynamic environments.

### MANTÉNGASE ALERTA Y ACTUALIZADO

Los trabajadores realizan a diario trabajos difíciles para mejorar la calidad de vida de su comunidad. Cuando se opera una diversa flota de vehículos y se trabaja junto con equipos pesados, usualmente en áreas residenciales congestionadas y con poca luz, la seguridad es de suma importancia. Equipar sus vehículos, desde vehículos todoterreno (UTV) hasta camiones de recolección de desechos, con las soluciones de seguridad e iluminación superiores de ECCO ayuda a mantener la zona de trabajo segura, lo que reduce al mínimo las lesiones y los daños materiales. Manténgase actualizado para prestar servicios de manera eficiente y confiable.

Proteger a las personas es nuestra máxima prioridad, es por esto que diseñamos nuestros productos para superar los estándares de la industria. Durante más de 48 años, los departamentos de obras públicas y los municipios han confiado en ECCO para realizar el trabajo en entornos exigentes y dinámicos.

### RESTEZ VIGILANT ET DANS LES DÉLAIS

Tous les jours, vos travailleurs accomplissent des tâches difficiles pour améliorer la qualité de vie de votre communauté. La sécurité est de la plus haute importance lorsqu'on exploite un parc de véhicules variés et qu'on travaille aux côtés d'équipements lourds, souvent dans des conditions de faible luminosité et à proximité de zones résidentielles congestionnées. En équipant vos véhicules, des véhicules utilitaires jusqu'aux camions à ordures, de solutions d'éclairage et de sécurité supérieures d'ECCO, vous protégerez la zone de travail, réduisant ainsi les blessures et les dommages matériels. Respectez les délais pour fournir des services de manière efficace et fiable.

La protection des gens est notre priorité : c'est pourquoi nous concevons nos produits pour qu'ils dépassent les normes de sécurité de l'industrie. Depuis plus de 48 ans, les services de travaux publics et les municipalités se fient à ECCO pour accomplir les travaux dans des environnements exigeants et dynamiques.

# DECADES OF EXPERIENCE

“ My first job was working as a ‘general laborer’ for my town’s public works department. I spent a summer mowing grass, clearing brush, tarring roads, painting playground equipment and driving around our big old yellow trucks. Not a bad gig for a 16-year old. Our safety equipment had to be reliable to keep us out of trouble and ensure citizens could easily see us working along the road and on the work site. From the big amber beacon on top of the pickup to the audible back-up alarm on the dump truck, this essential equipment allowed us to do our jobs with peace of mind. Filling potholes in 90 degree summer heat, the last thing we needed to worry about was being seen and heard on site. ECCO provided that layer of safety and continues to protect the general laborers out there earning their first paycheck.”

- Mike Culton, ECCO Safety Group Employee

---

## **PROTECCIÓN A LOS TRABAJADORES Y LAS COMUNIDADES**

En mi primer trabajo, me desempeñé como obrero general para el departamento de obras públicas de mi ciudad. Pasé todo un verano cortando césped, limpiando brochas, asfaltando calles, pintando las instalaciones de los juegos del parque y conduciendo alrededor de nuestros grandes y viejos camiones amarillos. No fue un mal desempeño para alguien de 16 años. Nuestro equipo de seguridad debía ser confiable para mantenernos libres de problemas y garantizar que los ciudadanos pudieran vernos fácilmente trabajando en la carretera y en el sitio de trabajo. Desde la gran baliza ámbar sobre la camioneta recolectora hasta la alarma sonora de retroceso del camión de volteo, este equipo esencial nos permitió realizar nuestros trabajos con tranquilidad. Cuando rellenábamos los baches durante un verano con unos 35 °C, lo último por lo que necesitábamos preocuparnos era ser vistos y escuchados en el lugar. ECCO proporcionó ese nivel de seguridad y continúa protegiendo al personal general de trabajo que está ganando su primer sueldo.

## **PROTÉGER LES TRAVAILLEURS ET LES COMMUNAUTÉS**

Mon premier emploi a été comme « ouvrier général » pour le service des travaux publics de ma ville. J’ai passé un été à tondre l’herbe, à défricher les broussailles, à goudronner les routes, à peindre les équipements de terrain de jeu et à conduire l’un de nos vieux camions jaunes. Pas un mauvais boulot pour un jeune de 16 ans. Notre équipement de sécurité devait être fiable pour nous protéger des problèmes et garantir que les citoyens puissent facilement nous voir travailler le long de la route et sur le chantier. Du gros gyrophare orange sur le dessus de la camionnette jusqu’à l’avertisseur sonore de recul sur le camion à benne, cet équipement essentiel nous a permis de faire notre travail en toute tranquillité d’esprit. L’été, lorsque nous remplissions des nids-de-poule par 32 °C (90 °F), nous ne voulions surtout pas devoir en plus nous inquiéter d’être bien vus et entendus sur le site. ECCO a fourni cette couche de sécurité et continue à protéger les ouvriers non spécialisés alors qu’ils gagnent leur premier chèque de paie.

## FEATURED PRODUCT ED9215 SERIES

### COMBO WORKLIGHT AND WARNING LIGHT

The ED9215 is ideal for mounting on bumpers or the grille. It produces 135° of coverage and features a powerful light to illuminate the job site. The intense white light is in the center and it is flanked by dual-color warning lights. Two Hide-A-LED™ warning lights are mounted at a 45° angle on each end to provide effective off-angle visibility. Be seen and get the job done safely with this all-in-one, directional lighting solution.

El modelo ED9215 es ideal para montarlo en parachoques o en la parrilla. Produce 135° de cobertura y cuenta con una potente luz para iluminar el sitio de trabajo. La intensa luz blanca está en el centro y está rodeada por luces de advertencia de dos colores. Dos luces de advertencia Hide-A-LED™ están montadas en un ángulo de 45° en cada extremo para proporcionar una eficaz visibilidad fuera del ángulo. Tenga visibilidad y termine el trabajo de manera segura con esta solución de iluminación direccional todo en uno.

Le modèle ED9215 est idéal pour le montage sur le pare-chocs ou la calandre. Il offre une couverture sur 135° et un éclairage puissant pour éclairer le chantier. L'éclairage blanc extrêmement éblouissant se trouve au centre et est flanqué de feux de détresse bicolores. Deux feux de détresse Hide-A-LED™ sont montés à un angle de 45° à chaque extrémité pour offrir une bonne visibilité sans limites d'angle. Soyez visible et accomplissez votre travail en toute sécurité grâce à cette solution d'éclairage directionnel tout-en-un.

## FEATURED PRODUCT EW4009

THREE 47-WATT LEDS

Replace headlights and melt the snow and ice away with EW4009's heated lenses. These LEDs are weather-resistant and deliver 80,000+ hours of maintenance-free operation with surprisingly low amp draw. The high intensity light output and CE rating make the EW4009 a perfect fit for a variety of DOT applications.

Reemplace los faros y derrita la nieve y el hielo con los lentes calefaccionados EW4009. Estos LED son resistentes al clima y ofrecen más de 80 000 horas de funcionamiento sin mantenimiento con un consumo de amperios sorprendentemente bajo. La salida de luz de alta intensidad y el marcado CE hacen del modelo EW4009 un ajuste perfecto para una variedad de aplicaciones DOT.

Remplacez les phares et faites fondre la neige et la glace avec les lentilles chauffantes du modèle EW4009. Ces LED sont résistantes aux intempéries et offrent plus de 80 000 heures de fonctionnement sans entretien avec une consommation en ampères étonnamment faible. Le flux lumineux à haute intensité et le marquage CE font du modèle EW4009 une solution idéale pour une grande variété d'applications DOT.

## FEATURED PRODUCT ED5051 SERIES

SINGLE- OR DUAL-COLOR, MULTI-MOUNT, SAE CLASS I

The ED5051 Series directional has three mounting options and can be installed virtually anywhere on the vehicle's surface, from the grille to the rear hatch. SAE Class I light output, synchronization capability and a wide variety flash patterns delivers an effective attention-getting, multi-color warning system.

La iluminación direccional de la serie ED5051 tiene tres opciones de montaje y se puede instalar prácticamente en cualquier parte de la superficie del vehículo, desde la rejilla hasta el maletero. La salida de luz SAE Clase I, la capacidad de sincronización y una amplia variedad de patrones de destello ofrecen un efectivo sistema de advertencia de varios colores que llama la atención.

La série ED5051 directionnelle dispose de trois options de montage et peut être installée pratiquement n'importe où sur la surface du véhicule, de la calandre au hayon arrière. Le flux lumineux de classe SAE I, la capacité de synchronisation et une grande variété de schémas de clignotement offrent un système d'avertissement multicolore efficace et bien visible.

## FEATURED PRODUCT ED9040 SERIES

**HIDE-A-LED™ CONCEALED WARNING**

The ED9040 Hide-A-LED™ Series provides the functionality of a warning light in a low-profile design. Ensure visibility on the road and on site with intense SAE Class I light output, synchronization capability, and the up to 69 flash patterns. The ED9040 offers flexibility with multiple flush mounting applications.

La serie Hide-A-LED™ del modelo ED9040 proporciona la funcionalidad de una luz de advertencia en un diseño discreto. Garantice la visibilidad en la carretera y en el sitio con una potente salida luminosa SAE de Clase I, capacidad de sincronización y hasta 69 patrones de destello. El modelo ED9040 ofrece flexibilidad con múltiples aplicaciones de montaje empotrado.

La série ED9040 Hide-A-LED™ offre la fonctionnalité d'un feu de détresse dans une conception compacte. Assurez la visibilité sur la route et sur le site grâce à un flux lumineux de classe SAE I intense, une capacité de synchronisation et jusqu'à 69 schémas de clignotement. Le modèle ED9040 offre une grande flexibilité avec de nombreuses applications de montage encastré.

## FEATURED PRODUCT EB7260 SERIES

### MINI POLE MOUNT

ECCO's EB7260 Series LED Beacon produces a warning signal that is ideal for industrial applications. The long, maintenance-free service life of LED technology, backed by a 5-year warranty, makes this a perfect replacement solution for existing strobe beacons. This cost-effective, SAE Class I or II light features 12-24V operating range that also makes it ideal for use on electrically powered vehicles and equipment.

La baliza LED de la serie EB7260 de ECCO produce una señal de advertencia que es ideal para aplicaciones industriales. La larga vida útil de la tecnología LED que no requiere mantenimiento, respaldada por una garantía de 5 años, la convierte en una solución de reemplazo perfecta para las balizas estroboscópicas existentes. Esta rentable luz SAE de Clase I o II ofrece un alcance de operación de 12 a 24 V, que también representa un uso óptimo en vehículos y equipos eléctricos.

Le gyrophare à LED de la série EB7260 d'ECCO produit un signal d'avertissement idéal dans les applications industrielles. La longue durée de vie sans entretien de la technologie à LED, soutenue par une garantie de cinq ans, en fait une solution de remplacement idéale pour les gyrophares stroboscopiques existants. Cet éclairage économique de classe SAE I ou II est doté d'une plage de fonctionnement de 12 à 24 V, ce qui le rend également idéal pour une utilisation sur l'équipement et les véhicules électriques.
