

CHALLENGER DUMP

HYBRID SERVICE-DUMP BODIES

The STAHL Challenger Dump is a one of a kind hybrid truck body designed to provide tool and equipment storage along with hauling and dumping capability in one versatile package. Constructed of heavy gauge, primed Galvanneal steel, Challenger Dump bodies feature large side compartments for secure, sealed storage and a dump bed capacity of up to 3.3 cu. yards. With an array of optional equipment including tarps, adjustable shelving, pintle hitches and more, you can easily configure the Challenger Dump to meet your specific application needs.

PROTECTION FOR VALUABLES

Keyed-alike locks on each compartment door keep valuables secure while factory installed automotive-style bulb seal helps protect contents from the elements

STRONG & DURABLE

Reinforced double-panel compartment doors with rotary latches manufactured with stainless steel handles and Galvanneal pans.

Pictured with optional I-Pak tool box and mesh tarp

Other Standard Features Include:

- Subframe mounted conversion hoist with electric hydraulic pump and motor unit
- 5" structural channel bumper with safety chain loops, heavy duty hitch mount plate with multi-hole pattern for adjustable pintle hitch height
- Cab protector with rear view grill cutout and set up for easy tarpaulin mounting
- Aluminum fuel fill bracket installed in fender panel
- Light kit with side markers, front and rear clearance, 3 ID lights in rear apron all in loom protected harness

Covered by STAHL's 1 -Year "No Rust, No Bust" warranty

Box frame tailgate design with 4-position coal chute door provide both strength and versatility needed for a wide range of applications

Six large weather sealed lockable compartments offer plenty of storage space for tools and equipment
