@WhelenENG

About Whelen

Whelen Engineering designs and manufactures reliable and powerful warning lights, white illumination lighting, sirens, controllers, and high-powered warning systems for Automotive and Mass Notification industries worldwide. Whelen products have been proudly designed and manufactured in America since 1952. With quality as the foundation, Whelen celebrates innovative engineering with every product made.

Manufactured in America for over 70 years. We never left and we're here to stay

# **Tech Glossary**

5 Year

Warranty

#### **Conformal Coating**

A thin material that conforms to the contours of the PCB to protect the electronic components from harsh environments and impact

Two-color interleaved LEDs

#### DUO+™

Two-color interleaved with independent control of color one and color two

DVI patterns gradually increase and decrease warning light intensity, which better conveys visual information to approaching motorists at night. These patterns clearly indicate when a vehicle is parked and improves a driver's ability to safely navigate around a work zone

#### DYAD™

Two-level technology

#### **Encapsulated**

Lightheads are fully encapsulated for moisture and vibration resistance.

#### Hard-Coat

Whelen's industry-first innovative Hard-Coating process counteracts the effects of environmental and chemical damages to our lenses and domes.

#### Linear-LED® (Super-LED®)

Whelen's optimized use of the latest generation of LEDs and unique reflector optics to produce highly intense light that has superior wide-angle visibility and rivals strobe in performance

#### Low Current

Low current function wires require less than 0.25 amp to operate, allowing for simple operation of each lightbar function.

#### **Proclera® Silicone Optics**

Whelen's innovative and efficient solution to distorted optical shape and fringe lighting. Proclera Optics feature 100% internal silicone optic technology, an increased ability to harness LED output and better direct and focus light, and a fully filled square TIR optic to increase optic efficiency compared to a conventional circular TIR.

#### Rota-Beam™

Solid-state "rotating" technology, simulating the appearance of a rotating beacon without any moving parts or motors for long-life reliability.

#### Scan-Lock™

Whelen's advanced method of changing a products flash pattern. Scan-Lock utilizes an external wire to allow the user to cycle through the entire range of flash patterns, allowing for full customization.

#### Scan-Lock™ +

The Scan-Lock+ app is the simplest way to change Whelen flash patterns. Designed for optimal convenience, Scan-Lock+ features an easy to use interface and utilizes a Bluetooth connection. Download the Scan-Lock+ app and browse, test, and assign Whelen flash patterns right from your phone.

#### **SmartLED®**

Whelen's distinctive use of self-contained electronics to power and flash a particular LED product. These products require no external flasher, ballast, or power supply to operate.

#### SOLO™

Single-color LED

Two-color lighthead where each color fills half of the reflector

#### **Standard Current**

DVI™

Enabled

Lightbar functions are wired directly to the switching device and require switches that are matched to the current draw of the desired functions to be activated.

#### Super-LED®

Whelen's innovative LED technology

Sync provides the ability to connect multiple Whelen devices to flash together or in alternating patterns. Products with this capability allow the user to create coordinating flashing schemes.

#### TIR (Total Internal Reflection)

Whelen's optimized use of the latest generation of LEDs and unique reflector optics to produce highly intense light that can be directional in nature.

Three-color interleaved with independent control of color one, color two, and color three

#### WeCad™

Engineered for optimal accessibility, WeCad lightbar designer delivers the ability to design custom Whelen lightbars with every available option. Adding R65 compliant options is simple, and a bill of materials will be generated to make ordering fast and easy.

#### WeCan®

Whelen's proprietary CAN-based communication system

#### **WeCanX®**

Whelen's smartest and most powerful CAN-based communication system. WeCanX provides true system synchronization, greater speed capabilities, expanded peripheral add-ons, and full support of diagnostics.

R416AF

#### **FEATURES**

- •100% solid-state "rotating" technology simulates the appearance of a rotating beacon without any moving parts or motors
- •Smooth polycarbonate outer dome
- •Virtually no RFI/EMI radiation

- •Powder-coated die-cast aluminum base
- •Conformal coated electronics for moisture and vibration resistance
- •Available in permanent, magnetic and magnetic/suction

Mirror Mount Bracket

### Freedom® IV DYAD™ Series

Features available across product family. May not apply to every model.

#### **FEATURES**

- •Linear Super-LED® technology
- •Advanced Thermal Design improves LED performance during extended operation
- •Aluminum top repels hail and other environmental damages
- •Extruded aluminum platform
- •Center dividers with Liquid Injection Molded seals protect internal components from water infiltration
- •One piece uni-dome construction with a single sealing point assures lightbar integrity in all weather conditions
- •Plug & Play into Whelen WeCan® products
- •16' exit cable
- •Available with Clear, Smoked, or Color lenses
- •Brake/Tail/Turn option available
- •See page 89 for switching options

- Replace symbol in model number with letter indicating desired color: A=Amber, B=Blue
- # Replace symbol in model number with letter indicating desired color: A=Amber, B=Blue
  # Replace symbol in model number with letter indicating color combo desired: F=Amber/White, P=Amber/Greeen

Clear dome models are available. Consult price list for ordering information.

The use of a magnetic or suction mounted beacon on the roof of a vehicle in motion is not recommended, and is at the sole discretion and risk of the user.

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit whelen.com/regulatory.

# **Responder® R2LP Series**

Features available across product family. May not apply to every model.
\*Please contact Whelen for specific photometric information
regarding CA Title 13 lighthead and configurable lightbar

product conformance.

#### **FEATURES**

- •Super-LED® low-profile linear LIN6® mini lightbar
- Polycarbonate dome
- •Available with extruded aluminum base or polycarbonate base
- •Available in permanent, magnetic and magnetic/suction mount models
- •DUO" technology model has different Color LEDs in the same module allowing lightbar to flash different colors

(2) 6-LED Take-Downs

(2) Alley Lights

#### PRE-CONFIGURED LIGHTBAR

# Mini Legacy® Series

Features available across product family. May not apply to every model.

#### **FEATURES**

- ·Linear Super-LED® technology
- •Advanced Thermal Design improves LED performance during extended operation
- •Aluminum top repels hail and other environmental damages
- •Extruded aluminum platform
- •Center dividers with Liquid Injection Molded seals protect internal components from water intrusion
- •One piece uni-dome construction with a single sealing point assures lightbar integrity in all weather conditions
- •Proclera® Silicone Optics (available in take-down lights)
- •Available with Clear or Smoked lenses
- •Permanent mount features a low-profile mounting kit
- •Magnetic mount includes 90 lb pull magnets
- •Magnetic and magnetic/suction mounts include 10' cord, cigar plug with On/Off switch and Scan-Lock™ flash pattern switch

### QuickFit™

Features available across product family. May not apply to every model.

#### **FEATURES**

- •Mounts a variety of emergency lighting without any vehicle damage, including Whelen beacons and the following mini lightbars: Responder® LP/HD, Mini Century™, Mini Liberty™ II, and Mini Legacy®
- Vehicle specific vacuum-formed install kits provide a perfect fit
  Available with a durable steel or powder-coated aluminum construction in Black or White
- •Bolt-on installation system with fixed brackets requires no cutting or drilling, providing peace of mind when used on both leased trucks and aluminum roof structures
- •Quickly and easily mounts using the screw holes of the vehicle's third brake light
- •Third brake light remounts to the QuickFit platform
- •Wiring is simple to install through the existing third brake light opening, without removing the headliner
- •QuickFit is designed to keep a level mounting surface for the life of the install
- Includes mounting bracket
- •Usable mounting area is approximately 7.25" (184.15mm) W x 17.25" (433mm) L

# **Traffic Advisor™ TAC8 (Economy)**

Features available across product family. May not apply to every model.

#### **FEATURES**

- •TAC8 includes compact control head easily mounted 3 different ways: VHB tape, Velcro™ or Permanent mount hardware
- •15' cable standard, extra length cables available
- Black extruded aluminum housing
- •Four operating modes: left, right, split, or flashing
- •Rear dip switch provides 8 flash pattern choices

### WeCanX® 2250

Features available across product family. May not apply to every model.

Download WeCad™ for full list of available options whelen.com/download-software

WX2280

#### **FEATURES**

- •Utilizes powerful ION™ T-Series™ lightheads with patented E Block™ technology
- •IP67 rated lightheads
- •3" slimmer than 4500 series
- •Flush mount (slide bolt)
- •12/24 VDC Input Voltage
- •Powered by WeCanX technology

- •Functionality configurable in Whelen Command®
- •Lighthead configurations easily defined within Whelen's WeCad™ Software
- •DUO™ support in warning light options
- Aerial recognition option
- •Includes two angled end caps

### **Tracer<sup>™</sup> WeCanX**<sup>®</sup>

Features available across product family. May not apply to every model.

TCRWX5

#### **FEATURES**

- •Dynamic Variable Intensity (DVI™) light patterns
- Vehicle-to-Vehicle Synchronization
- •Available in SOLO™ (single-color) or DUO™ (two-color interleaved) modules
- •Whelen Command® programming allows:
  - •DUO modules to operate with a steady override, such as white steady-burn
  - •Full configurability of Traffic Advisor™ functionality
  - •Adjustable intensity levels of cruise light control
- •Mounts easily via slide bolt with vehicle specific brackets, universal "L" brackets, or under lightbar brackets
- •Works with existing Tracer mounting hardware
- •SAE Class 1 certified
- •12 VDC
- •Five-year warranty
- •Hard-coated lenses resist environmental damage from sand, sun, salt, and road chemicals

#### **OPTIONS**

Chrome Flange, Also

M2GROM Chrome Flange, Also **Grommet Mount** 

Pedestal Mount, Also Available in Chrome M2PEDC

# **Brake/Tail/Turn Lights**

Features available across product family. May not apply to every model.

#### **FEATURES**

- •Fully encapsulated for moisture, vibration, and corrosion resistance
- •Hard-coated lenses minimize environmental damage from sand, sun, salt, and road chemicals
- •E Block™ technology prevents air and moisture from entering the lighthead

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information,

- •Surface mounts via two screws for easy installation
- •A variety of mounting brackets and optional Black and Chrome flanges are available

904BTT

- Meets SAE requirements
- •5-year warranty

# **Arges® Remote Spotlight**

Features available across product family. May not apply to every model.

#### **FEATURES**

- •The innovative mechanical design provides 360° of continuous rotation and a 180° tilt range
- •ProFocus Models: 5° spot to 60° flood variable beam width
- •Spotlight Models: 5° spot
- •Proclera® Silicone Optics
- •Black die-cast aluminum housing
- •CenCom Core® and WeCanX® compatible
- •Drivetrain is electronically and mechanically protected
- •Arges installs quickly and requires no A-pillar drilling or airbag interference

ARGES1

- •Includes two 18" power control harnesses and one 12" communication cable
- •Control head features a paddle and three push-buttons
- •Program Arges with Whelen Command® or use alone with its paired control head
- •Full Arges system passes CISPR 25 Class 3

#### **FEATURES**

- •Available in single or dual models
- •Single Lamp Models: 8° spotlight pattern comes standard. Includes additional 40° x 20° flood lens
- •Dual Lamp Models: 8° spotlight pattern comes standard. Includes two additional optic lenses for a light pattern choice of:
  - Dual 40° x 20° flood
  - 8° spot and 40° x 20° flood
- •Optic lens changes easily via removable lens retainer

- •Injection molded polycarbonate lenses are impact resistant
- •Die-cast aluminum powder-coated housing in Black or White
- ·Solid-state electronics
- •LEDs are instant On/Off, eliminating ramp up time and high inrush current
- •Correlated Color Temperature (CCT) of 5,700° Kelvin simulates bright midday light
- •Includes 6' cable
- •Powder-coated stainless steel bail bracket

#### **FEATURES**

- •SAE 578 Color Temperature Certified
- Preconfigured spot, flood, or scene optics
- •Available with White illumination, Amber marker, and warning lights
- •Warning lights require remote flasher, purchased separately
- •Individual control of each set of optics
- •Extruded and die-cast aluminum powder coated housing available in Black or White
- •Screwless lens retainer design provides a clean finish and the improved ability to adjust optic configuration
- •100% solid-state electronics
- •Rear mounting track for flexible mounting configurations, bail bracket mount standard
- •Includes 2' cable, connector, and heat shrink tubing

# **Perimeter Enhancement Light**

Features available across product family. May not apply to every model.

#### **FEATURES**

- •Available in one-color or two-color
- •Fully encapsulated for moisture, vibration, and corrosion resistance
- •Same mounting dimensions as original PEL models
- •Light is projected downward at a 40° angle for widespread ground illumination
- •Hard-coated lenses minimize environmental damage from sand, sun, salt, and road chemicals
- •Whelen's patented E Block™ technology prevents moisture from entering the lighthead
- •Mounts to vertical surfaces and may be mounted inverted
- Molded rubber gaskets protect body panels
- •5-year warranty

## 66 WHELEN

# Handheld Spot/Floodlights

Features available across product family. May not apply to every model.

#### **FEATURES**

•90lb. pull magnet mount with 8' coiled cord and cigar plug

•Built-in push-button On/Off switch

| Model  | Description                             | VDC | Dimensions         |
|--------|-----------------------------------------|-----|--------------------|
|        | PAR-36, Super-LED® Handheld Combination |     | 9.41" (239mm) H x  |
| P36HHS | Spotlight/Floodlight                    |     | 3.45" (88mm) D x   |
|        | Spottignt/Floodingit                    |     | 4.82" (123mm) Dia. |
|        |                                         |     | 10.5" (270mm) H x  |
| P46HHS | PAR-46, Super-LED Handheld Spotlight    | 12  | 3.75" (94mm) D x   |
|        |                                         |     | 6" (152mm) Dia     |

Consult current price list for full list of available options at whelen.com/literature.

# Rubber Housing Spot/Floodlights

**FEATURES** 

•Rubber stud/swivel housing

•Available with or without lighthead

 ${\it Features \ available \ across \ product \ family. \ May \ not \ apply \ to \ every \ model.}$ 

P36SLCHG

•Hard-coated lenses

| Model    | Description                              | VDC   | Dimensions                            |
|----------|------------------------------------------|-------|---------------------------------------|

# SmartLogic<sup>™</sup> Programmable Flasher

SLFLASH

#### **FEATURES**

- •Software is configurable via USB port
- •Outputs are internally protected and fused
- •8 Inputs: 5 activating inputs, 3 non-activating for low power, photocell and brake/tail/turn cutoff
- •Default flash pattern
- •Day and night mode truck setups

#### **OPTION**

CEM16

# **Lighting Compliance**

**KKK 1822-F** - Federal Ambulance Specification

**CAC, Title 13, Article 22** (Red, Blue and Amber lightheads)

Warning lamps and devices:

SAE J595 - Flashing Warning Lamps for Authorized Emergency, Maintenance, and Service Vehicles (Jan 90)

SAE J845 - 360° Warning Devices for Authorized Emergency, Maintenance, and Service Vehicles (May 97) Class 1, Class 2, Class 3 (Includes selective coverage)

SAE J1318 - Gaseous Discharge Warning Lamp for Authorized Emergency, Maintenance, and Service Vehicles (May 98) Class 1, Class 2, Class 3

Test procedures and materials:

SAE J575 - Test Methods and Equipment for Lighting Devices & Components for use on Vehicles less than 80" (2032mm) in Overall width (Jun 92)

**SAE J2139** - Test Methods and Equipment for Lighting Devices & Components for use on Vehicles greater than 80" (2032mm) in Overall width (Jan 96)

**SAE J578** - Color Specifications (Jun 95)

Signalling and marking lighting devices and systems:

**FMVSS108** - Federal Motor Vehicle Safety Standards

SAE J586 - Stop Lamps for use on Motor Vehicles Less than 80" (2032mm) in Overall width (Sep 95) **SAE J585** - Tail Lamps (Rear position Lamps) for Use on Motor Vehicles Less than 80" (2032mm) in Overall width (Dec 94)

SAE J588 - Turn Signal Lamps for Use on Motor Vehicles Less than 80" (2032mm) in Overall width (Dec 94)

**SAE J592** - Clearance, Side Marker, Identification Lamps (Dec 94)

**SAE J593** - Back-up Lamps (Reversing Lamps) (Oct 95)

**SAE J593C** - Back-up Lamps (Reversing Lamps) (Feb 68)

**SAE J914** - Side Turn Signal Lamps for Vehicles less than 36' (12m) in Length (Jan 95)

**SAE J1432** - High Mounted Stop lamps for Use on Vehicles 80" (2032mm) or More in Overall Width (Sept 97)

**SAE J1889** - LED Lighting Devices (Jun 99)

SAE J1957 - Center High Mounted Stop Lamp Standard for Vehicles Less than 80" (2032mm) in Overall Width (Jun 93)

**SAE J2039** - Side Turn Signal Lamps for Large Vehicles (Jun 94)

SAE J2040 - Tail Lamps (Rear Position Lamps) for Use on Vehicles 80" (2032mm) or More in Overall Width (Apr 99)

**SAE J2042** - Clearance, Side marker, and Identification Lamps for Use on Motor Vehicles 80" (2032mm) or More in Overall Width (Jun 96)

**SAE J2261** - Stop Lamps and Front and Rear-Turn Signal Lamps for Use on Motor Vehicles 80" (2032mm) or More in Overall Width (Mar 96) NFPA 1901 - (2009 Edition) For NFPA application consult current NFPA Specification Lighting Packages Catalog

**SAE J1398** - Stop Lamps for Use on Motor Vehicles 80" (2032mm) or More in Overall Width

**SAE J1395** - Turn Lamps for Use on Motor Vehicles 80" (2032mm) or More in Overall Width

### 4 WHELEN

# **CenCom Core® + WeCanX® Devices Working Together To Keep Everyone Safe**

Core-R<sup>™</sup> is a vehicle control system engineered to enhance first responder and motorist safety with complete configurability, advanced automation, and remote connectivity.

- •Seamlessly integrates with the Whelen Command® software
- •Vehicle-to-Vehicle Sync and DVI™ patterns better convey visual information to approaching motorists
- •Small footprint: 5.76" H x 5.46" W x 1.11" D
- •Simple install: Two screws, top access connectors
- •Modular design mounts in many different places
- •Supports remote firmware updates through USB-C with Whelen
